

George Cook

Bsc Computer Science

I am a dedicated and detail oriented professional known for my strong work ethic and focus. I am proficient in multiple programming languages including Java, Pascal, C, C++, Haskell, Prolog, Python, JavaScript and PHP. I bring a versatile skill set to any project. With a keen eye for detail, I excel in problem solving and possess a high level of emotional intelligence, enabling me to collaborate effectively in team environments or work independently. Motivated and driven, I demonstrate an aptitude for solving complex mathematical and logical challenges that may arise in my work.

Problem Solving
Communication
Continuous Learning
Creativity

Attention to detail
Programming Languages
Collaboration
Using Computer Systems

EDUCATION

BSc Computer Science

Swansea University September 2018 – July 2021

• Grade: 2:1

A-level

Hills Road Sixth Form College September 2016 – July 2018

- Extended Project: A
- Computer Science: C
- Mathematics: C
- Physics: C

EXPERIENCE

Cromwell Business Systems

Ely, Cambridgeshire April 2025 – May 2026

- Software Development.
- Customer Support.

The Royal Standard

Ely, Cambridgeshire Decemeber 2023 – April 2025

- Bartender Manager.

Avic Cabin Systems

Waterbeach, Cambridgeshire September 2022 – December 2023

- Production Planner.
- Internal Operations.

PROJECTS

Epos System

This was my A-level Project for Computer Science, written in Delphi Pascal. <https://github.com/Gullwolf/Customer-and-Order-Management-System>

Population Simulator

This project simulates a population's potential growth

based on real world data and statistics, written in Java. <https://github.com/Gullwolf/ProofWeLiveInASimulation>

Table Booking System

This was a project to replicate a piece of software that I used in hospitality, to see how it worked behind the front end. <https://github.com/Gullwolf/TableBookingSystem>
